

Every customer interaction, protected by Sift

Sift gives you an advanced, scalable way to analyze risk across the entire user journey. **The Digital Trust and Safety Suite** brings all Sift fraud products into one integrated solution. Start with protection against one fraud vector, and deploy other Sift products as your needs evolve.

Expand your business without worrying about fraud, and leverage the expertise of a dedicated solutions team.

Grow revenue without risk, with a single unified solution

Increase revenue

Remove unnecessary friction for good users to increase sales conversion

Strengthen your brand

Block fake accounts, and stop spam / scams to protect your users and brand

Decrease fraud

Take chargebacks and bad actors out of the equation to improve your bottom line

Reduce chargebacks by **80%** or more

Increase accepted orders by **2x**

80% decrease in manual review

5x ROI after switching from legacy system

“

“Sift is a holistic and well-rounded fraud solution — we can send any and all the data that we want, and we get back all of the actionable information that we wouldn't have found on our own.”

Nicole Grazioso
Payments & Risk Manager at SeatGeek

A complete solution for protection and growth

Holistic protection for the user journey

Analyze user behavior throughout their lifecycle, and make proactive decisions that stop fraud before it happens.

Increased sales conversions

Strategically remove friction to make it as easy as possible for good users to buy and interact.

Global data network

Benefit from our community of over 12,000 sites and apps from day one, to stay ahead of fraud trends.
